

2017 Burbank Blast Tech Sheet

Your Show - please complete one tech sheet per choir

Our tech crew works really hard to make sure your choir looks and sounds its very best on the Burbank Blast stage, but we've never seen your show. The more information you can share with our stage, sound and lighting crews, the better we can make you look. Thank you! **NOTE: use of smoke, confetti cannons or pyro effects requires advance notice and approval.**

Contact Information

Director

School

Choir Name

Please tell us about your group. Who are your choreographers and arrangers? Does your set have a theme? Any interesting stories or facts you'd like to share? The information you supply here may be included in our program book or used by our student hosts when they introduce your group.

Staging Information

To help minimize your truck load, the following musical items will be available to all groups who choose to use them: one Yamaha CP-300 digital stage piano, one Roland KC550 keyboard amp and one standard drum kit.

Number of musicians in combo

Number of music stands required

Our standard riser configuration will be four rows, set at 12" - 24" - 36" - 48" heights. If you require a different configuration, please describe it now. Feel free to use the back of this page to diagram your setup.
